

DOES RAINWATER POND ON YOUR STREET? TELL US ABOUT IT!

Open for public input from **March 13 to April 3, 2024**

CITY OF MECHANICVILLE DRAINAGE STUDY

The City of Mechanicville is undergoing a *Drainage Study* to identify flooding areas of concern. Once the inventory of flood concerns has been completed, the study will provide a range of mitigation options that are intended to reduce the impacts of future flood events on the community.

You can assist in this process by visiting the project website through the following weblink or by scanning the QR code below!
